

ProCSI-H 2024

Promoting the Computational Science Initiative High School

What?

ProCSI-H (pronounced proxy-H) is a free, six-day, summer camp hosted by the Simulation Based Engineering Lab (SBEL) at the University of Wisconsin-Madison.

Programming?

During the day, students will explore various engineering and computer science sub-fields through lab tours and hands on activities. At night, students will hang out with their peers, participating in fun events!

Who?

For high school students who are currently in their freshman, sophomore, or junior year. Minority, first generation, and or female students are strongly encouraged to apply. No prior experience required.
